1. This modification is issued to incorporate the following CLIN 0029 requirement into the contract:

| ITEM | SERVICE | QUANTITY/ UNIT | MONTHLY PRICE | TOTAL AMOUNT |
|--------|---|-------------------|------------------|--------------|
| 0029JC | NAVSEA Realignment Moves for the period from 21 May 2003 through 20 July 2003 | 2 Months | \$370,973.00 | \$741,946.00 |
| | | | | |

2. This CLIN is only orderable by UIC N00024.

Statement of Objectives - CLIN 0029 for NAVSEA REALIGNMENT MOVES

A. **BACKGROUND:** In November 2002, NAVSEA Headquarters entered into a realignment of functions and processes that resulted in a plan to move all personnel affected by these realignments to their new organizations and the new spaces for the new organizations. These realignments will affect most of the personnel (approximately 2500 total) seated at the Washington Navy Yard, in buildings 22, 197 and 201. The physical moves associated with this realignment are required to take place mid May through mid July 2003.

B. **OBJECTIVE:** As stated above, the objective is to relocate all of the personnel and organizational spaces affected by the NAVSEA HQ realignments to the detailed plan now in final preparation. The first large move of personnel (up to 1000 personnel) and office spaces for which NAVSEA needs NMCI/ISF assistance, is scheduled for 15 May through 14 July 2003. The second large move (approximately 1200 personnel) is scheduled for 26 through 30 June 2003. The EDS personnel identified for this effort will work in a teaming effort with the NAVSEA operational team leads to provide a standard approach on all the move efforts.

C. **SERVICES TO BE PROVIDED:**

1. The scope of services required to support NAVSEA Headquarters personnel realignment is for NAVSEA legacy seats in NMCI AOR'd status and includes the following:

- a. Disconnect, label components, and bag all computer hardware and peripherals identified by government to be relocated.
- b. Reconnect computer hardware and peripherals at new location as identified by the government.
- c. Validate all disconnects and reconnects were performed as required by the government.
- d. Perform re mapping of printers, scanners, etc. (drive mapping for all peripherals) on relocated desktop systems.
- e. Test reconnected desktop systems. Document and report problems via Remedy Tickets.
- f. Perform cable plant re labeling tasks and provide 2500 green and blue port or input/output (Orthonic) tabs.
- g. Provide VLAN modification, restructure, port locking and unlocking at the port address at multiple times during the move shifts, to also include port renaming, locking, swapping, etc.
- h. Perform firewall modifications connections and adjustments as required and currently configured during each scheduled move.

The government agrees to provide specific relocation requirements seven calendar days prior to the contractor's scheduling and performance work.

D. **PLACE OF PERFORMANCE:**

Washington Navy Yard, Buildings 22, 197 and 201.

N00024-00-D-6000
Modification A00014
Page 3 of 3

E. PERIOD OF PERFORMANCE:

NAVSEA Headquarters leadership drives the requirements of these personnel relocations. They have determined that is essential to accomplish Physical personnel move to accommodate a minimum interruption to performance of mission critical operations. We are scheduled to begin moves on 21 May 2003 and required to be completed 20 July 2003.

F. HOURS OF WORK PERFORMANCE:

It is recognized and required by NAVSEA leadership that the majority of these taskings will take place outside the government's normal business day. The contractor will be required to work their personnel outside the government's normal business day (shift work to include night work) and will be required to work weekends and possibly holidays to meet requirements of this tasking. Overtime, Sunday pay, Holiday pay and shift work differential are accepted by the customer and authorized on this tasking and as allowed by governmental contracting authorities.

G. SECURITY:

The work being performed ^{RL2} involves both classified and unclassified desktop systems. Contractor employees shall be required to meet all security and safety regulations pertinent to the work location. The highest level of classification is "Secret".

A CONFORMED COPY OF THE REVISED CONTRACT IS MADE A PART OF THIS MODIFICATION AS A RESULT OF THE CHANGES OUTLINED HEREIN.

All other terms and conditions of Contract N00024-00-D-6000 remain unchanged, and in full force and effect.
